

ATHLETICS FOR BEGINNERS

SCORING TABLES

FOR

ALBERTA YOUTH

COMBINED EVENTS PROGRAM

by Marek Glowacki
Head Coach of Athletics
at University of Alberta, Canada

ATHLETICS ALBERTA 1995

Second edition - Athletics Alberta - 2007

INTRODUCTION

The Alberta Youth Scoring Tables have been developed for the new Age Class Combined Events Program introduced in Alberta in 1995. These scoring tables are designed to score performances of 13 and under girls and boys in the following events: 50m, 60m, 70m, 80m, 100m, 200m, 300m, 400m, 600m, 800m, 1000m, 1500m, 50mH, 60mH, 80mH, 90mH, 100mH, 300mH, 1500mRW, HJ, LJ, TJ, SP, DT, JT and BT.

This ***New Edition*** of the Scoring Tables for youth is more flexible and universal. It was observed that average performances achieved by girls and boys 13 and under do not show noticeable differences. Therefore these scoring tables could be used for both girls and boys. The addition of eight extra events to a total of 26 track and field events may add more flexibility in scoring.

The Alberta Youth Scoring Tables were design to score various triathlons and tetrathlons for athletes thirteen years of age and younger in the Province of Alberta. This hard copy of the Alberta Youth Scoring Tables provides an abbreviated version of the tables. It may be used for scoring when the computer software version of tables is not available. However the Hy-Tek meet manager software can only produce accurate results.

NOTE: The difference between scores calculated by the "abbreviated version" of the scoring tables (Hard Copy) and the Hy-Tek Meet Manager may happen.

For Championship Meets, Records and Ranking purposes always use the Hy-Tek version of the Alberta Youth Scoring Tables.

HOW TO USE THE HARD COPY OF THE TABLES

The scoring tables include twenty five (25) track and field events. There are 24 pages (one event per page). Scoring chart for discus and javelin throw is the same. This is the "abbreviated version" of the scoring tables and it should be used as a guiding tool or as a backup in case the electronic version of the tables cannot be used. For full accurate scoring however (including championship meets and records keeping) use a full electronic version of the tables that is built-in in the Hy-Tek Meet Manager software. (Make sure you select the "Alberta Youth" for fully automatic timing and "Alberta Hand" for hand timed events).

In events when times and distances can not be exactly found on the scoring chart the nearest poorer performances should be read off.

Example: A 800m runner was clocked at 2:30.63 sec. There is no exact result of 2:30.63. Therefore the nearest poorer result of 2:30.80 should be read at a value of 349 points. Of course, while scoring the results by Hy-Tek Meet Manager a more precise point score can be obtain.

Times in all running events are expressed in 1/100 of a second (as required by the fully automatic timing rule). While evaluating a hand-timed performances (in 1/10 second) the following method shall be used:

Example: In sprints and hurdles, up to 200 m a 0.24 of a second and in 300 to 400m a 0.14 of a second shall be added to the hand timed result. (Hand timed 100 m = 13.5 sec + 0.24 sec (FAT conversion factor) = 13.74 sec The 13.74 time (electronic time) should be read off the tables as 286 points).

In distances 600 m and over no correction is necessary and the 1/100 second tables should be used at the full 1/10 intervals.

ALBERTA YOUTH SCORING TABLES
